Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 – Adding marketing claims and explanatory graphics.
Product Name: BG- Sweetscent
EPA Registration Number: 87472-1
Application Date: February 08, 2018
OPP Decision Number: 538830

Dear Ms. Pehrson:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped “Notification” and will be placed in our records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals - CAUTION: May cause severe eye irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contact of mouth, skin, or eyes with the contents. Wash hands before eating, drinking, chewing gum, using tobacco or using bathroom facilities.

Environmental Hazards: To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT OPEN (SACHET) (PACKET).

BG-Sweetscent is a lure designed to mimic human skin (scents) (emanations) (odors) to attract mosquitoes to traps where they die. The BG-Sweetscent can be used in any kind of mosquito traps, either inside or outside, depending on the trap type. Place the BG-Sweetscent (sachet) (packet) in the space allocated for added mosquito attractants, either inside or outside the trap. Refer to the trap manufacturer's directions for use for placement. Replace the lure after eight (8) weeks of use.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store in a cool, dry place out of reach of children until ready to use.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. Dispose of used sachet in the trash.

Text on individual attractant sachets:

- Biogents
- BG-Sweetscent
